AISH MASKEY

Front end Developer | BSc (Hons) Computer Systems Engineering Graduate

Address: Imadol, Lalitpur | Contact: (+977) 9746553700 | Email: aishmaskey555@gmail.com | LinkedIn: www.linkedin.com/in/aish-maskeyace23 | GitHub: https://github.com/aishmaskey23-ace

---

PROFILE SUMMARY

Frontend Developer with a strong foundation in HTML5, CSS3 and modern JavaScript (ES6+), building responsive, interactive interfaces with React hooks and component-driven design. I'm comfortable across the stack with MySQL for data, and I use Figma for wireframing and UI layout before writing a single line of code.

EDUCATION

INTERNATIONAL SCHOOL OF MANAGEMENT & TECHNOLOGY (ISMT) Oct 2023- Oct 2026

(In Partnership With University of Sunderland)

BSc (Hons) Computer Systems Engineering

Grade: First-Class Honours

PROJECTS

AI-Solutions Web Platform (GitHub Link) | (Live Demo Link) | Full-Stack Developer (Academic Project) – June 2026

- Architected a full-stack, database-driven website using HTML5, CSS3, JavaScript, PHP, and MySQL, securing backend operations with PDO prepared statements and honeypot anti-spam protection. Designed an ARIA-accessible AI chatbot with intelligent escalation logic to route complex queries to human support.

JobTrack — Job Application Tracker (GitHub Link) | (Live Demo) | Frontend Developer (Self-Directed Project) – September 2026

- Built a Kanban-style job tracker in React 19 (Context API, custom hooks, React Router v7) with localStorage persistence and dynamic detail pages. Optimized rendering with useMemo/React.memo/useCallback; added accessible drag-and-drop and ARIA-compliant UI.

Web Development Mini Projects | HTML5, CSS3, JavaScript (ES6+) – October 2025

- Built interactive web apps (Personal Finance & Expense Management Dashboard [Live Demo Link], Tic Tac Toe [Live Demo], Rock Paper Scissors, To-Do List [Live Demo] with responsive, cross-device UI.

Ace Beans Landing Page | HTML5, CSS3, JavaScript (ES6+) (GitHub Link) | (Live Demo) – August 2026

- Built a responsive coffee-brand landing page in vanilla HTML/CSS/JS featuring dark mode, animated stats, a testimonial carousel, and a mobile-first layout.

FitLife (GitHub Link) | (Demo Video) | Android Developer (Academic Project) – January 2026

- Engineered a native fitness app using Kotlin and AndroidX with Kotlin DSL builds and optimized JVM memory management. Managed automated dependency resolution and version control using professional Git workflows.

Experience

Private Tutor (SEE Level) | **Freelance** *March 2026 – April 2026*

- Tutored SEE-level students in Optional Mathematics and Nepali, while providing additional guidance and academic support in other subjects. Explained complex concepts clearly and helped students strengthen their understanding, problem-solving skills, and exam preparation.

SKILLS

- Technical Skills: : HTML5, CSS3, JavaScript (ES6+), React.js (Hooks, State Management, Component Architecture), MySQL, Figma (Wireframing, Prototyping, UI Layout Design).
- Version Control: Git, GitHub.
- Tools & Technologies: Visual Studio Code, Figma, GitHub, Chrome Dev Tools, Android Studio.
- Soft Skills: Leadership & Team Coordination, Strong Communication Skills, Time Management, Problem-Solving & Logical Thinking.

ADDITIONAL INFORMATION

- Languages: English, Hindi, Nepali.
- Interests: Frontend design trends, UI/UX improvement, building personal projects, learning modern web technologies.
